About Me

I'm a recent graduate with a Bachelor's degree in Electronics and Communication Engineering, equipped with strong technical skills in Java, Spring Boot, and Node.js. Eager to leverage my academic knowledge and internship experiences to contribute effectively as a Java Full Stack Developer. Excited to apply my expertise in software development, agile practices, and modern digital architecture to help transform and enhance my Skills

Bachelor of Technology

2024 g pulliaiah College of Engineering and Technology
Kurnool
Affiliated by JNTU, Anantapur

Graduated, May
CGPA 7.9

Diploma

Shri Shridi Sai Institute of Science & Engineering
State Board of Technical Education
Andhra Pradesh

Passed Out, July 2021
Marks 77.6%

Secondary School of Education (SSC)

Sree saraswati English Medium High School.

Passed Out , April 2018
CGPA 9.2

Internship Experience

JUL 2022 – AUG 2022

AS Web Developer intern(remote)

Bolt.iot
Bengaluru, Karnataka

I worked as a web developer at Bolt IoT as a one-month intern, gaining practical experience in web development. One of the key projects I contributed to was the development of a photo gallery and portfolio project's. In this project's, I utilized my skills in HTML, CSS, and JavaScript to create an interactive and visually appealing user interface.

SEP 2023 – OCT 2023

Data engineering virtual internship

AWS Academy

I worked as a virtual internship in data engineering, where I gained valuable experience in handling and processing data. Throughout the internship, I was tasked with various responsibilities, including data cleaning, transformation, and analysis to ensure data quality and accuracy. One of the key projects I worked on involved designing and implementing an ETL (Extract, Transform, Load) process for a dataset, using tools such as Apache Spark and programming languages like Python.

AUG 2020 – JAN 2021

Cisco Certified Network Associate(ccna) intern

Cisco Learning network

During my virtual industrial training at the Cisco Learning Academy, I focused on developing expertise in Cisco switching and routing. Throughout the program, I engaged in a range of tasks conducted in a virtual environment, including configuring complex network infrastructures, implementing VLANs for segmentation, and troubleshooting to ensure optimal functionality. The training also covered the implementation of security measures through access control lists (ACLs) and the optimization of routing protocols like OSPF and EIGRP. I gained hands-on experience in designing resilient networks using technologies such as Virtual LANs (VLANs), Spanning Tree Protocol (STP), and Dynamic Host Configuration Protocol (DHCP). This virtual training not only enhanced my technical skills but also equipped me with the knowledge to excel in the virtualized landscape of Cisco networking.

Technical Skills

- Languages: Java, Python, C
- Frameworks: Spring Boot
- Web Development: HTML, CSS, JavaScript
- Tools: Apache Spark
- Operating Systems: Windows
- DevOps: Git

Soft Skills

- Strong analytical and problem-solving abilities
- Excellent written and verbal communication skills
- Quick learner with a passion for staying updated on emerging technologies

Languages

- Telugu
- English

Personal Interests

- Cricket
- Chess

Personal Details

Father's Name: Mr. P Hanumanthu

Marital Status: Single

Birthday: MAY 16, 2003

Nationality: Indian

Gender: Male

Declaration

I, P Harsha Vardhan, hereby declare that the information contained herein is true and correct to the best of my knowledge and belief.
